The HICSS-48 conference will consist of symposia, workshops, tutorials, advanced seminars, a keynote address, a distinguished lecture, formal paper presentations, and ad hoc meetings over four days, Monday through Thursday, January 5-8, 2015 at the Grand Hyatt on Kauai.

Since 1967 HICSS conferences have provided an exciting forum for the exchange of scientific ideas, research results, development activities, and applications among academicians and practitioners in the information, computer, and system science disciplines. Conference leaders seek the most recent and relevant cross-disciplinary research, providing a variety of research topics and wide-ranging discussion opportunities.

Among 18 top Information Systems conferences, HICSS is ranked 2nd in citation ranking, 2nd in value among IS conferences, and 3rd in value to the MIS field.

HICSS papers emphasize advances in research and development activities in several areas of the system sciences. Papers may be theoretical, conceptual, tutorial, or descriptive in nature. Acceptance is based on a strict peer review in a double-blind process, June - August of each year. Accepted papers are published in the HICSS-48 Conference Proceedings, distributed by the IEEE Computer Society Press, and included in Explore, the IEEE Digital Library (http://computer.org/cspress).

After a careful review by a special committee in each track Best Paper Awards are presented in a special presentation on the last day of the conference.

The Australian Government's Excellence in Research Project (ERA) gave HICSS an A rating in the December 2009 report.

HICSS attendees enjoy a high degree of personal interaction and lively discussion. Paper presentations and other sessions occur in an informal workshop-like setting. Registrants are expected to attend the entire conference – this year Monday through Thursday – to receive the most professional benefit.

Visit http://www.hicss.hawaii.edu for the most up-to-date information about HICSS-48.

HICSS is funded only by its registration fees. Three buffet lunches, one reception, a Luau Dinner, and the Proceedings are included in the registration fee. Hotel rates are heavily discounted from normal seasonal rates.
How and When to Submit a Paper *
Please follow Author Instructions found on http://www.hicss.hawaii.edu/hicss_48/apahome48.htm

- HICSS papers must contain original material. They may not be previously published, nor currently submitted elsewhere.
- Abstracts are optional. You may contact the Minitrack Chair(s) or Track Chair for guidance or verification of content. If you are not sure of the appropriate Minitrack, submit a preliminary abstract for determination.
- Submit a paper to only one Minitrack. Submissions to more than one minitrack may result in rejection by either minitrack without consultation with author.
- Do not author or co-author more than 5 papers. Track Chairs must approve any names added after submission.

2014 Dates
June 15: Submit full manuscripts for review. Review is double-blind; therefore this submission must be without author names.
Aug 15: Review System emails Acceptance Notices to authors. It is very important that at least one author of each accepted paper attend the conference. Therefore, all travel guarantees – including visa or fiscal/funding procedures – should begin immediately. Make sure your server accepts the address from our review system https://precisionconference.com/~hicss. At least one author of each accepted paper must immediately make plans to attend the conference, including initiating fiscal, visa, or other travel guarantees.
Sep 15: Early Registration fee deadline. (Fees will increase on Sept 16 and Dec 1.) At least one author of each paper should register by Sept 15 in order to secure publication in the Conference Proceedings. Add author names, and submit Final Paper for Publication to the Submission site (not previous review site).
Oct 15: Papers without at least one registered author will be deleted from the Proceedings; authors will be so notified.

Cancellation and Refund Policies
No registration refund after Dec 1. All conference cancellation requests must be in writing. A fee will be charged for cancellation of registration after Oct 15, at which time the paper will be withdrawn from the Proceedings. Hotel cancellation must be made directly with the hotel.

* all deadline dates are midnight Hawaii time.
